

# CARDIOLOGY GRAND ROUNDS

## Chronic Venous Insufficiency: The Forgotten Side of Circulation

### **Zvonimir Krajcer, MD**

*Director, Peripheral Vascular Disease  
Texas Heart Institute*

**October 26, 2018, 12:00 p.m.**

**Denton A. Cooley Auditorium  
Room C060**

Symptoms of chronic venous insufficiency can have a significant effect on a patient's quality of life. Despite high prevalence rates, awareness of venous disease is quite low.

At the conclusion of this conference, participants should be able to:

- Identify risk factors of chronic venous insufficiency.
- Identify clinical manifestations of chronic venous insufficiency.
- Describe the pathophysiology of chronic venous disease.

Texas Heart Institute is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Texas Heart Institute designates this live activity for a maximum of *1.0 AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
