- 1-C Where is Your Heart? (worksheet)
- 1-F Connect the Dots (worksheet)
- 1-G Word Search (worksheet)
- 1-H Word Scramble (worksheet)

Project Heart

Activities for the Classroom

Do you know where your heart is located?

In the picture, draw the heart and lungs in their proper location. On the blank lines, write what the heart and lungs do.

CHALLENGE: Draw the arteries. (Here's a hint: arteries carry blood to the rest of the body.)

ANATOMY ANSWER KEY

WHERE ARE YOUR HEART AND LUNGS?

Heart:

The heart pushes or pumps blood through the body.

Lungs:

The lungs breathe in needed air and breathe out used air.

Connect the dots.

Connect all the dots to create a special instrument your doctor uses to listen to your heart.

What is it?

ACTIVITY ANSWER KEY

CONNECT THE DOTS

Listed below are 7 words that are hidden in the puzzle. Can you find them all?

- BEAT
- BODY
- HEART
- LUB DUB
- MUSCLE
- PULSE
- PUMP
