GRADE 2 TEACHER RESOURCE: ANSWER KEYS

2–C Anatomy: Where Is Your…? (worksheet)

2–H Anatomy: The Inside of Your Heart (Assessment) (worksheet)
ANATOMY ANSWER KEY
WHERE IS YOUR ...?

In the picture, draw the brain, heart, lungs, and stomach in their proper place. On the blank lines, write what these organs do.

Brain:
The brain is the control center for our bodies.

Heart:
The heart pumps blood through the body.

Lungs:
The lungs exchange gases in the body, taking in O2 and releasing CO2.

Stomach:
The stomach digests our food to give our body nutrients and energy.

Name: __________________________________________________________________________________________
1. Chambers are like rooms. Your heart has **four (4)** chambers. (Color the chambers red.)

2. A wall of muscle called the septum separates the **two (2)** sides of the heart. (Color the septum blue.)

3. Valves are like doors that open and close. Your heart has **four (4)** valves. (Color the valves green.)
