

CARDIOLOGY GRAND ROUNDS

The Future of Mechanical Circulatory Support

O.H. Frazier, MD

*Professor of Surgery
Cardiothoracic Transplantation & Circulatory Support
Baylor College of Medicine
Co-Director, Cardiovascular Research Laboratories
Texas Heart Institute*

October 19, 2018, 12:00 p.m.

**Denton A. Cooley Auditorium
Room C060**

Analysis of the history and current status of Mechanical Circulatory support.

At the conclusion of this conference, participants should be able to:

- Identify key developments in mechanical circulatory support MCS evolution.
- Compare older mechanical circulatory support devices to a newer generation pumps.
- Identify current limitations that need to be overcome for future advances in MCS evolution.

Texas Heart Institute is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Texas Heart Institute designates this live activity for a maximum of 1.0 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Dr. Frazier received consulting fees from Abbott and Medtronic.
