

# CARDIOLOGY GRAND ROUNDS

18th Annual  
John Lewis Interventional Lectureship

## Improving the Safety of PCI: Tribulations, Trials, Transfusions, and Twitter

**Sunil Rao, MD**

*Duke University Health System*

**November 30, 2018, 12:00 p.m.**

**Denton A. Cooley Auditorium**  
*Room C060*

Strategies for the treatment of ischemic heart disease involve the use of potent antithrombotic and antiplatelet agents.

At the conclusion of this conference, participants should be able to:

- Review the incidence of bleeding and transfusion in patients with acute ischemic heart disease.
- Review the association between bleeding and transfusion and adverse outcomes.
- Review strategies for reducing bleeding risk and the design of the MINT Trial.

Texas Heart Institute is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Texas Heart Institute designates this live activity for a maximum of 1.0 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
