

# CARDIOLOGY GRAND ROUNDS

## The Microcirculation: Center of the Cardiovascular Regenerative Medicine Universe

### **Douglas W. Losordo, MD**

*Executive Vice President,  
Global Head of Research and Development  
Chief Medical Officer  
Caladrius Biosciences  
Basking Ridge, New Jersey*

**September 13, 2019, 12:00 p.m.**

**Denton A. Cooley Auditorium  
Room C060**

Recent evidence indicates that there are native cells capable of inducing repair of ischemic tissue. This lecture will present the evidence supporting the use of autologous CD34 cells for ischemic tissue repair.

At the conclusion of this conference, participants should be able to:

- Recognize the scientific evidence indicating the CD34 cell is a native microvascular repair cell.
- Assess the data from multiple randomized double-blind placebo controlled trials providing evidence for efficacy of CD34 cell therapy in multiple indications.

Texas Heart Institute is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Texas Heart Institute designates this live activity for a maximum of 1.0 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
